Rated 1 out of 5 by Anonymous from trash My user account got suspended for some reason. I didn't even know what roblox was until i got a message telling me that my account was suspended. That's it! Rated 2 out of 5 by Anonymous from To late Sorry I do not recommend getting this app. I only got it because I thought it would be fun to build a school and have students move in and learning the right skills. But that's not what this app is about.

Frequent updates. Roblox has a very dedicated and professional team of developers, who frequently update the game with fresh content, new games and bug fixes. This means that even though roblox is 7 years old, it feels fresh and new every time there is an update - a major plus for any game.

Floating Balls! I have noticed that when you are at a group world and getting on people's chat heads they should be able to fly around like on normal. We need this because there are so many times where such a little bug would make these people mad if they were floating anywhere near them because they would not know what to say. Even though there are thousands of people in the group there should be more room for them to float. I think that there should be more than one chat head. I have seen people report this bug but it has not been fixed and I really want to see it fixed.

Roblox has been criticized for the number of advertisements in their games. In 2016, the company stated that one of their games had over 5 million advertisements. They also stated that over 18% of the players would click on the advertisements.

ROBLOX collects account information from users using its Trusted ID system. The process is designed to make it easier for ROBLOX to provide players with a personalized experience and more opportunities to earn credits online. The program does treat user privacy concerns seriously, however, and requires notice before any account information becomes public. Players can adjust their personal settings on their profile page on the website.
